

STF SELURON

Technical Furniture

CORE COMPETENCIES

SeluRoN Technical Furniture (DBA STF Consoles) is a minority-owned technical furniture company providing ergonomically precise consoles, monitor walls, and workstation solutions. We tailor furniture to meet precise standards of our highly specialized clients. We offer turn-key services that include: consultation, design, procurement, on-site supervision, trade coordination, installation and delivery. Our services are provided nationally throughout the United States.

ABOUT US

Our staff has more than 40 years of industry experience delivering the highest quality technical furniture and consoles. We have provided STF Console solutions to clients in the following industries: Major Broadcast and Cable, Internet Media, Sport Facilities, Colleges & Universities, Federal/State/Local Government and Financial Institutions. Walter E. Oden II is the President and Principal. He has extensive public and private sector project experience, including 20+ years in broadcast media. Mr. Oden has held leadership positions in delivery of Federal programs and services, financing programs, business counseling and management training, government contracting, business development certifications, and disaster assistance.

WHY CHOOSE US?

Our Production/Master Control Rooms and Network/Security Operations Centers meet the highest standards in ergonomic, visual and technical requirements. We are qualified to do business with you and will not rest until you are satisfied with our results.
